On September 25, 2014, we expended \$97,553.24 for an October 10, 2014 Independent Expenditure in support of Pete Aguilar in CA-31. On September 26, we filed a 48-hour report disclosing this independent expenditure - well in advance of the October 10, 2014 public dissemination date. Because our software vendor does not permit the electronic transmittal of both the dissemination date and the disbursement date on the 48-hour report, we defaulted to the date of dissemination on the 48-hour report. However, for purposes of the October monthly report, we have changed the date of dissemination to September 30, 2014 so that our software will pick up and report the expenditure in the current reporting period, which is when it was made.
